

December 5th, 2007

Oh, how time flies. We've updated the forum, and set it back to the default template for the time being. We will be creating a final template when the software we are using is finished.

We've also done a lot of work over at DLMonitor.com, so if you haven't checked that out yet go ahead and take a peak. Today we got a little bit of time to remove all the Download Tracker stuff and updated the menu to link to the site now. Besides that we've done some cleanup here or there and are actively working on the unreleased program that we've been working on and off for the past year. Hopefully we will have something to show for it in the new year. It may be a little while until we can post back on our progress due to the upcoming holiday (and snowboarding) season. So Happy Holidays everyone and safe traveling.

Lastly, we'd like to thank those that have been clicking on the sponsor ads. We appreciate your donations to help further the cause...keep it up :)
